Session1 Diagnostic EUS

Session2 Therapeutic EUS

演者①

良沢 昭銘 先生

埼玉医科大学国際医療センター
消化器内科 教授

演者②

伊佐山 浩通 先生

順天堂大学医学部附属順天堂医院
消化器内科 教授

WEBINAR FRIDAYS ABSTRACT

Recently, EUS has become an indispensable imaging modality not just for diagnosis and preoperative staging of pancreatobiliary diseases, but also for an increasing array of image-guided interventional procedures. In this webinar, I will talk about Diagnostic EUS including the standard imaging techniques and the basic techniques to improve the yield of EUS-guided tissue acquisition.

Shomei Ryozaawa

Department of Gastroenterology Director, Endoscopy Center
Saitama Medical University International Medical Center

Currently, various diseases can be managed with Interventional EUS procedures. To perform safe and successful IV-EUS, we are getting many tips, strategies, devices and echoendoscopes. We should catch up information about IV-EUS. In this lecture, I will explain and introduce the cutting edge of IV-EUS.

Hiroyuki Isayama

Department of Gastroenterology
Juntendo University School Of Medicine
